

NATURALLY CUSTOM

Naturally Custom is an eco-friendly creative advertising company. We specialize in buttons, magnets, bottle openers, stickers, and vinyl printed apparel made from all-natural resources within our in-house production shop. No minimums, buy a single button or 5,000 bottle openers, quantity is no concern. Quality on the other hand is, we routinely perform rigorous quality control to ensure your order arrives as expected.

Established 2013 in pursuit of fulfilling Rachael's dream to become an entrepreneur we gathered whatever funds we could and bought a single 1" button press. Since we've added 1.25", 1.5" and 2.25" buttons along with stickers and custom printed apparel. Looking to get something different? Chat with us about your idea!

Production Notes

Production cannot begin until payment is received. We cannot allot our time to orders that are unpaid due to the large volume and high demand of orders in our queue. Once you have submitted your order information and received your invoice, design and production is pending your payment. For orders that require a deposit, design and production is begun the time the deposit is received, full payment is required at completion.

Pricing

Our goal is to price our products completely and fairly for our customers. We will often price-match to remain competitive, please send a link, screenshot, estimate, or past invoice for us to review when asking for a price-match.

Payment

Payment is expected in full for all pinback button, sticker, and accessory orders. Payment is expected in full for all custom apparel orders of \$100 or less. A deposit is required for custom apparel orders over \$100 to begin production. At the time of your invoice you will receive a notice to request your deposit.

Order Process

Each custom order flows through the following order process; #1 Order Placement, #2 Design, #3 Production, and #4 Shipment.

1. **Order** - An order is either placed by a customer completing checkout through our web-store or our Etsy store. When an order is placed with payment submitted the order is considered received. Customers can also submit a custom inquiry for any custom order that we offer but is unlisted in either of our shops. For most inquiries, we email our customer an invoice for payment. For custom apparel and more complex orders we email our customer an estimate for their approval. Once an estimate is approved an invoice is emailed for payment.
2. **Design** - During the design process we will work with you with whatever image you provide and your vision for the design. Our design work is considered a part of your order and we do not charge any extra fees for multiple proofs or total design mock-up! Don't worry yourself with the artwork file types, we've got that covered.
3. **Production** - Once you've okay'd the digital proof through email the design is off to production. Everything we offer in-house is listed for-sale. Anything we out-source is per-job and is discussed during the order.
4. **Shipment** - To share savings we ship USPS for almost all orders. We encourage you to confirm your shipping address when placing your order to ensure receipt! If there are any issues or delays please contact your local USPS as well as our team.

Digital Proofs

Digital proofs are only provided for orders which have been confirmed and paid by the customer. Proofs are normally available within 48 hours of receipt of payment, often proofs are available same-day. Note that we are never in full operation on weekends so this timeline excludes weekends and major holidays. Your order will move into production once the artwork proof is approved via email.

Turnaround Time

Standard production time for print ready orders is 2-3 business days after proof approval. For custom apparel, production time is 5-7 business days after proof approval.

Shipping

All of our orders are shipped with either USPS Priority Mail or First Class from Dover, NH, expedited and international shipping is available upon request.

Quality Disclaimer

Though each order is subject to quality control before shipment, due to the handmade nature of our products, an allowance for "imperfections" is assumed when the order is confirmed. Though the occurrence of imperfections is rare, the room for error can be as high as 10% for some orders. We encourage you to consider this when placing an order if imperfections is a concern. If the level of imperfection is higher than 10% for your order, please provide samples of the errors and confirm the number of units which have been deemed "unsellable". In most cases we will replace the units at no cost or offer a percentage discount on your next order.

HOW TO SUBMIT YOUR DESIGN

Submitting your design is as simple as emailing your images to us! If you have specific words you'd like on your design just note the content within an email. If you are placing an order through Etsy you may also submit your images through the Etsy chat feature. If you are design savvy, wonderful! Print-ready artwork is always welcomed with joy! Our Prince Roland (our print & cut machine) prints eps format images, all image files are accepted.
